NXLevel Solutions adds David Schmoyer to its Sales and Clinical Training Group

Lambertville, NJ, March 11, 2024 — NXLevel Solutions, a leading developer of clinical and compliance training programs for the life sciences industry, has added David Schmoyer as Vice President, Business Development, in its Sales and Clinical training group. Dave is an accomplished industry veteran, with an established reputation for managing the successful development and deployment of custom training solutions. He will be responsible for introducing NXLevel's innovative learning solutions to an expanding base of life sciences clients.

Dave comes to NXLevel from IC Axon, where, as Vice President of Sales, he built multi-year strategic relationships with pharmaceutical, biologic, medical device, diagnostics, and aesthetics companies across US and global marketplaces. He also directed a large team of employees supporting all aspects of his customer accounts, including instructional design, content, production, project management, and budgeting.

Pete Sandford, NXLevel's co-founder and Executive Vice President, sees Dave as an ideal fit for the company's growing team. "Dave is well-known in the industry as a partner who can be trusted to help clients accomplish their business and learning objectives through high-impact learning solutions," says Sandford, "and we are thrilled that someone with his experience and reputation in the life sciences training landscape is now an integral part of our Sales and Clinical training team."

About NXLevel Solutions

NXLevel Solutions develops eLearning, microlearning, workshops, and interactive programs that help life sciences employees learn, remember, and apply knowledge and skills. The company offers custom solutions for sales and clinical training, as well as a full suite of off-the-shelf products and custom development focused on life sciences compliance.
